

# Changes 28 july

- 1. The state of these 4 lines remains the same throughout, make it live not seeded just like twin room,
- 2. can you move the navigation bar next to novus studio & applied ai dashboard and not below it ,

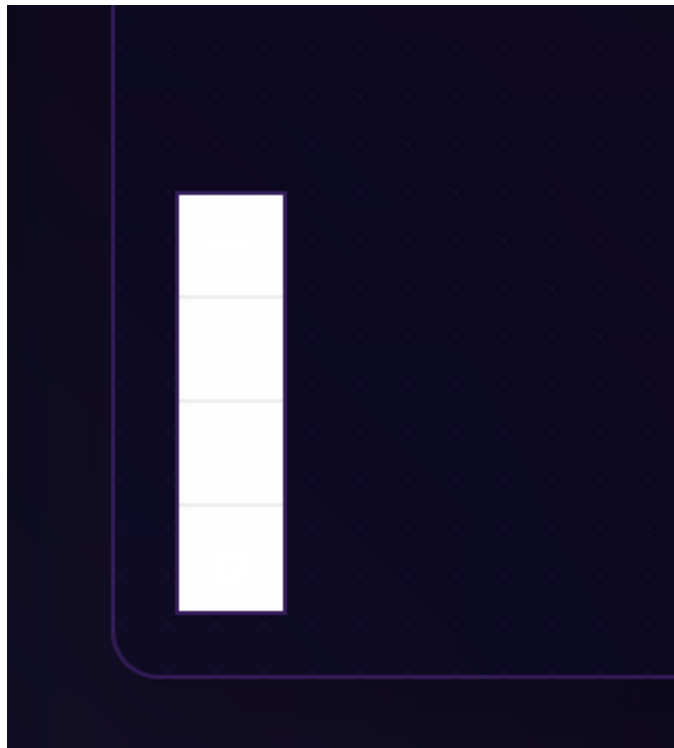

3.

3.

In the integrations part rather than directing them to the internal hub/integrations page make a small pop up of integrations,

4. Change it to look more usefull , right now its just a white block

5. Here upon typing few words some suggestions should pop up -
